

Wording for Courtesy and Overdue Notices

The original notice schedule and the wording of the text was proposed and accepted in 2005. The first notices had no link to the My Account or to InfoSoup or to the Library Directory. Those were added at a later date.

It has been suggested that having a link to the patron account on the overdue notices would be helpful. There are also, currently, some issues with Encore Mobile that may affect what link we want to provide. We will discuss these issues and the wording of the notices at the January 15, 2016 AAC Meeting.
